On a scale of 1 to 100: Do you agree with this statement? The primary public agency responsible for the socio-emotional problems of children and youth caused and exacerbated by the pandemic should be the DCPS public schools.	3
Teacher turnover in DC's public schools are among the highest in the nation, and the pandemic has made teaching even more challenging. What do you think can be done to address teacher turnover in DCPS?	
Given the pandemic that has made educator evaluation very difficult, evaluations can pause for 2 years to also allow the development of tools that would incorporate input from teachers and parents as well as research on how surrounding jusidictions are approaching this critical aspect of our public education system.	
The pandemic has highlighted the need to provide equitable student access to technology as part of a 21st-century education. What will you do to ensure DCPS supports comprehensive technology planning and funding to support student learning?	
Every student needs electronic devices for their studies. Assuring that budget and resources are available and distributed on day one of the new school calendar is what councilmembers can do. I am committed to that responsibility that includes assur.ing that resources are ordered, available per school and classroom on opening school day.	
DCPS school communities have concerns with the quality of building repair and maintenance including HVAC systems in older as well as newly modernized buildings. How can the Council address their concerns with DCPS facilities operations and maintenance?	
Routine and regularly schedule review if all mechanical systems in each school must continue to be the norm annually. For facilities with aging systems these mechanicals should be closely monitored and evaluated monthly. Repairs or replacement of these parts would be in order as soon as changes in the system are discovered even if the "brake down" has not yet occurred.	
The financial outlook for the District has been impacted by the public health crisis, previous years of strong economic growth, and federal Rescue Plan funds. What do you think the three greatest fiscal challenges for D.C. public education will be over the next four years?	
As the educational ratings increase. Providing adequate classroom space will be one problem that I am looking forward to observing. Also teacher retention may become more difficult unless teacher salaries increase. At the Council. I expect to increase funding for	

Check the statement below that best describes your position:	
I think D.C. policies should prioritize the DCPS system of by-right	х
neighborhood schools.	^
I think D.C. policies should prioritize parental choice.	
Explain:	
On a scale of 1 to 5 with 1 being the strongest How strongly do you agree with	
this statement: The most effective system to ensure equitable quality for	4
students and communities is a system of well-planned and supported DCPS	1
feeder schools of right.	
On a scale of 1 to 5 with 1 being the strongest, how strongly do you agree with	
this statement: PK4 students should be able to enroll by-right into their	1
neighborhood DCPS elementary schools.	
Will you support convening a student assignment and boundary review	.,
process to be completed by 2023?	Yes
Should DCPS have budget protections because of its responsibilities as the	
school system-of-right?	Yes
The DC Council transferred responsibility for school security in DCPS schools from MPD back to DCPS; DCPS will control its security guard contract this year; and MPD School Resource Officers will be reduced. How should the	
Council determine whether students are more safe and secure?
