Ward 3 Candidates for the DC Council

Monte Monash	
monte.monash@gmail.com	
MonashForWard3.com	
On a scale of 1 to 100: Do you agree with this statement? The primary public	
agency responsible for the socio-emotional problems of children and youth	25
caused and exacerbated by the pandemic should be the DCPS public schools.	
Teacher turnover in DC's public schools are among the highest in the nation,	
and the pandemic has made teaching even more challenging. What do you	
think can be done to address teacher turnover in DCPS?	
I believe teacher salaries should be increased. We should provide access to more inclusive	
teacher training to better provide for students with learning differences. We must	
streamline the performance review process for teachers and listen to their feedback on what	
works or does not work. DC should offer incentive benefits like transportation stipend and	
access to affordable housing.	
The pandemic has highlighted the need to provide equitable student access to	
technology as part of a 21st-century education. What will you do to ensure	
DCPS supports comprehensive technology planning and funding to support	
student learning?	
I would support DCPS's increased budget request for more trained technology teachers,	
curriculum development, age appropriate software and equipment. I would also encourage	
DCPS to engage in partnership with our local technology vendors to partner with our schools	
to offer program mentorships that will create a pathway for students to skill map their	
studies to technology jobs as a career.	
DCPS school communities have concerns with the quality of building repair	
and maintenance including HVAC systems in older as well as newly	
modernized buildings. How can the Council address their concerns with DCPS	
facilities operations and maintenance?	
Work with DCPS and DGS to receive regular updates on the facilities master plan for a report	
on maintenance priorities and open request. Request a report on open work orders and	
close out documentation. Do an annual walk through of schools to gain a clear	
understanding of maintenance priorities and unique issues in a given building. Connect DCPS	
with sister agency programs like RiverSmart with DOEE.	
The financial outlook for the District has been impacted by the public health	
crisis, previous years of strong economic growth, and federal Rescue Plan	
funds. What do you think the three greatest fiscal challenges for D.C. public	
education will be over the next four years?	
1. Maintenance of buildings and grounds 2. Teacher retention due to lower salary levels. 3.	
Additional learning resources for student instruction and support services.	
Check on the statement below that best describes your position:	
I think D.C. policies should prioritize the DCPS system of by-right	х
neighborhood schools.	

I think D.C. policies should prioritize parental choice.	
·	
Explain: A by-right of neighborhood school would offer balance throughout the DCPS	
system. Neighborhood schools create connections and investment in the neighborhood.	
Thriving neighborhood schools contribute to a ped and bike friendly community.	
On a scale of 1 to 5 with 1 being the strongest How strongly do you agree with	
this statement: The most effective system to ensure equitable quality for	4
students and communities is a system of well-planned and supported DCPS	1
feeder schools of right.	
On a scale of 1 to 5 with 1 being the strongest, how strongly do you agree with	
this statement: PK4 students should be able to enroll by-right into their	1
neighborhood DCPS elementary schools.	
Will you support convening a student assignment and boundary review	V
process to be completed by 2023?	Yes
Comments, if any: I agree with this process. However, this is not under the preview of the	
DC Council.	
Should DCPS have budget protections because of its responsibilities as the	Voc
school system-of-right?	Yes
Comments: DCPS is responsible for educating any student by-right. Therefore the budget	
should support that obligation.	
The DC Council transferred responsibility for school security in DCPS schools	
The DC Council transferred responsibility for school security in DCPS schools from MPD back to DCPS; DCPS will control its security guard contract this year; and MPD School Resource Officers will be reduced. How should the
